## Reason for request

30% of Australians experience eczema and it's the most common skin condition affecting childhood. This book was created to explain eczema to young children, their friends and parents, to acknowledge feelings children with eczema experience and to provide an empowering strategy.

## The Eczema Detective

**Synopsis:** A four year old boy sets out with his buddy, a curious squirrel, to discover why he has eczema. The Eczema Detective is written in child friendly language, provides a simple strategy for young children with eczema to feel empowered, and is a must-have resource for parents, educators and carers.

**The Eczema Detective:** Uncover the world of eczema with interesting facts, helpful tips, and fun preschool activities. Our story makes learning about this common skin condition an enjoyable experience. (QR code included to access a downloadable copy of the activities included in this book). **NB:** Medical information is current and accurate. Dermatologists, Nurse Practitioners, Paediatricians and the Eczema Association of Australasia were consulted to create a very much needed resource for young children and their parents.
